emuliert Tastendruck Strg-Li/Re etc.
Straight, Bug, Iambic-A/B, Ultimatic

QSOs via Internet – VBand & Co.

Ham Radio Solutions Virtual CW Band - VBand

Channels Channel Settings Store Support About

Welcome to VBand, the internet Virtual CW Band.

June 4, 2025 - We have recently made some improvements to VBand.

- You may need to clear the cache for our site on your browser in order for it to work properly. You can do this on MacOS by going to our website and pressing command-shift-R. If you are on Windows, go to our site and hit Ctrl-F5.
- [CW Hotline](#) can now communicate with any VBand channel. Update to the latest CW Hotline firmware required.
- Users can create private VBand channels. Create the channel name in the settings tab and share with your friends. Append "(ND)" to the name to make it decode only.
- VBand transmissions are now displayed more like phone text messages. A pause of 5 seconds will complete the message.
- Please share any comments on our [Discord Server](#).

Click a channel below to get started.

Warning - We have received numerous reports from users who have purchased clone / counterfeit VBand adapters that are not compatible with our website, even though they claim to be. We do not support these adapters. You can find our supported adapter on the Store tab above.

Vail Training Tools

Practice and improve your Morse code skills

Want to use your real CW keys with your computer? Build or buy an adapter at [vailadapters.com](#)

- Hear It, Type It**: Hear Morse code and type what you hear. Start with letters, progress to words, call signs, and Q codes.
- Hear It, Say It**: Hear Morse code then say what you hear. Practice verbal recognition with response time and ICR tracking.
- Send Practice**: Practice sending Morse code with real-time feedback. Supports USB CW keys and MIDI adapters.
- Free Practice**: Send morse freely with real-time decoding and MP3 recording for practice review.
- QSO Simulator**: Master pileup handling with realistic contest and field activation scenarios.
- Shadow Enigma**: WW2 Codebreaking Game - Crack Enigma-encrypted morse code transmissions.
- Spark Watch**: Maritime Morse Code Training - Copy distress signals from historical disasters.
- AI QSO Bot**: AI-Powered Conversations in Morse Code.
- Ben's Best Bent Wire**: Test your CW morse code speed - key phrases as fast as you can!
- Morse Story Time**: Use a Vail Adapter and CW Key to practice sending with precision and statistics.
- Vail Master**: Use a Vail Adapter and CW Key to practice sending with precision and statistics.
